CEO - Make A Difference

Make A Difference is a youth driven, non-profit organisation working to ensure better outcomes for children in shelter homes. MAD's vision is that even the most vulnerable children in society are able to realize equitable outcomes. Our minimum target is to ensure that they surpass the threshold of middle class. Our Mission is to ensure that all children in shelters across India are able to realize better outcomes within the next 25 years, by mobilizing the community, enabling the sector, empowering the child, and changing the ecosystem.
